

# König Liquid Sandpaper 711 000

## Uses

- For the gentle removal of filler residues.
- To degrease filled areas prior to sealing.
- To tone down a heavy application of touch-up dye.

## Characteristics

- A mixture of special solvents matched to the König product range.

## Application

Recommended auxiliaries: Cloth and Felt Pad.

Stretch one ply of fabric around the felt pad, dampen cloth with Liquid Sandpaper and remove residues of Quick Filler 130, Soft Wax 140, Rex-Lith 151-153 (after 4-6 minutes curing time) and AQUA Wood Filler A155 from the area surrounding the damage by wiping slightly.

Proceed the same way to degrease the surface prior to touch-up work/gloss grade adjustment or to tone down a heavy application of touch-up dye:

Sprinkling with Liquid Sandpaper makes Shellac 142 'pliant'. Thus, projectings can be treated more easily after filling.

**Note:** This product is lightly solvating. Therefore, make a test on an inconspicuous area first to ensure compatibility with the surface.

## Specifications

**Colour:** transparent clear.

**Shelf life:** unlimited  
(stored upright at room temperature, in original unopened container)

## Safety Precautions

- Noxious to health.
- Hazardous to the environment.
- Highly inflammable.
- Keep away from sources of ignition. – No smoking.
- Do not breathe vapours.
- For professional use only.
