

König Colour Edging Pen PLUS 243 000

Uses

- For the opaque dyeing of closed surfaces in the wood, plastic and metal sector.
- For a quick uncomplicated dyeing of corners, edges and grooves.
- To varnish mitre grooves on foil-covered PVC window profiles and doors.
- For indoor and outdoor use.

Characteristics

- Pigmented covering lacquer based on acrylic.
- Dries rapidly.
- High opacity.
- Can be varnished with all König touch-up and aerosol lacquers.
- Good adhesion to many lacquer, plastic and metal surfaces (not to Soft-PVC).
- Limited PVC-resistance (door and window gaskets).
- Good lightfastness and weather-resistance.

Application

Shake pen well for at least 10 secs – mixing balls must be audible. Take off cap, hold pen upside down and briefly de-aerate by pressing with thumb and forefinger on the lower part of the housing (pressure adjusting is audible). Hold pen with tip pointing downwards and press slightly until tip is soaked with dye. Touch-up with rapid strokes. For exterior use, the lacquer coats have to be stronger. When working on windows and doors, do not use in the gasket area. If lacquer ceases to flow well, press again. Replace cap after use.

Areas to be treated have to be free from dust, grease and silicone. Dried-up tips to be washed out in nitrocellulose thinner. If pen has not been used for a long time or where pigment separates at the tip just replace with a new tip (spare tip in the pen's bottom). For further information please see instructions for use.

Specifications

Processing recommendation: at 18-25°C and 55-65% RH
Dust-dry: after approx. 1-2 minutes
Touch-dry: after approx. 2-5 minutes (dependent on room temperature and coat thickness)
Lightfastness: good
Weather resistance: good
Shelf life: at least 2 years (stored at room temperature, in original unopened container)

Safety Precautions

- Highly flammable.
- Irritant.
- Keep away from sources of ignition. – No smoking.
- Do not breathe vapour.
- Use in well-ventilated areas, only.
