

König Hard Wax 141 000

Uses

- For the repair of minor and medium-severe damage on a flat surface or on an edge.
- To be used on surfaces that are subject to medium-severe use.
- For solid wood, veneer, foil, thermosetting, thermoplastic and plastic surfaces for interior use.
- Recommended for indoor use.

Characteristics

- Mixture of mineral waxes, coloured with earth and oxide dyes.
- Good adhesion properties.
- Colour shades can be mixed together during melting.
- Can be stripped off easily by means of the Special Fillers Applicator, a chisel or the Metal Planer.
- Good elasticity (no development of cracks).

Application

Remove all loose and splintered particles and indent damage edges with a sharp chisel or the tip of the Metal Planer 406. Use König Touch-Up products to colour damaged edges that are lighter than the base colour.

Use the hot tip of the Electric Heater 440 or the Hot Knife 439 to melt off small quantities of Hard Wax and fill into the damage area.

Important: Do not set the temperature of the heater too high. Surplus filler to be planed off before wax cools down completely, using the Special Fillers Applicator 161500 (sharp grooves on a flat surface, round grooves at edges).

Surplus wax to be wiped off rapidly with the Scotch Brite 609, grain 1500, using light pressure.

Restore grain with König Touch-Up material. The grain pattern can be restored by slightly scratching (e.g. with an upholstery needle).

Finally, apply Special Repair Lacquer PLUS 336-340 to seal and to protect the damage area from dust, dirt and to adjust the gloss sheen, if necessary.

Specifications

Softening point:	76 °C	(ISO 2207)
Dropping point:	81 °C	(DIN 51801)
Mechanical stability:	good.	
Can be lacquered over:	with all König lacquers.	
Adhesion:	good adhesion to all plastics, soft and hard woods.	
Shelf life:	unlimited (stored at room temperature, in original unopened container)	

Safety Precautions

- The product is neither subject to the Hazardous Freight Regulations nor to the Dangerous Substances Directive.

Disposal

- No special disposal regulations to be observed. Can be added to the household waste.

Packaging

20 x 8 cm sticks, in cardboard box
10 x 8 cm sticks, in cardboard box
Standard and special colour shades (S.A.)
