Proprietary Ingredient 3	Proprietary	25-50

The exact percentage is withheld as trade secret. Other components are below reportable levels or are non-hazardous.

SECTION 4: FIRST AID MEASURES

- Inhalation:** Remove to fresh air. If breathing is difficult, give oxygen. If not breathing, begin CPR. Seek medical attention immediately. To prevent aspiration, keep head below knees.
- Eye Contact:** Immediately flush eyes with water for at least 15 minutes while holding eyelids open. Get medical attention promptly.
- Skin Contact:** Immediately remove contaminated clothing and shoes. Wash affected area with plenty of soap and water. If symptoms occur, seek medical attention. Launder clothing before reuse.
- Ingestion:** Rinse out mouth immediately. Do not induce vomiting. Call a physician or poison control center immediately. Never give anything by mouth to an unconscious person. Get medical attention immediately.

Most Important Symptoms/Effects, Acute and Delayed:

Aside from the information found under the First Aid Measures (above) and special treatment needed (below), any additional important symptoms and effects are described in Section 11: Toxicological Information

Indication of Immediate Medical Attention and Special Treatment Needed:

Notes to Physician: Treat symptomatically. No specific antidote available.

SECTION 5: FIREFIGHTING MEASURES

- Suitable Extinguishing Media:** Carbon dioxide, dry chemical, foam, water fog
- Specific Hazards Arising from the Chemical:** Highly flammable liquid and vapor. Vapors may cause a flash fire or explosion. Vapors can travel to source of ignition and flash back. Closed containers may explode under extreme heat.
- Special Protection Actions for Firefighters:** Wear self-contained breathing apparatus pressure-demand NIOSH/MSHA (approved or equivalent) and full protective gear. Evacuate unnecessary personnel. Shut down motors, pumps, electrical service and eliminate all sources of ignition. Water may be ineffective. Water spray may be used to cool containers, protect personnel, or to knock down vapors.

SECTION 6: ACCIDENTAL RELEASE MEASURES

Personal Precautions, Protective Equipment and Emergency Procedures:

Immediately turn off or isolate any sources of ignition (pilot lights, electrical equipment, flames, heaters, etc.). Evacuate area and ventilate.

Environmental Precautions:

Do not allow to enter drains or sewers. All disposal must comply with federal, state, and local regulations. The material, if discarded or spill, may be a regulated waste. Refer to state and local regulations. Department of Transportation (DOT) regulations may apply for transporting this material when spilled. See Section 14.

CAUTION: If spilled material is cleaned up using a regulated solvent, the resulting waste mixture will also be regulated.

Methods and Materials for Containment and Cleaning Up:

Personnel wearing proper protective equipment should contain spill immediately with inert materials (sand, earth, chemical spill pads of cotton) by forming dikes. Dikes should be placed to contain spill in a manner that will prevent material from entering sewers and waterways. Large spills, once contained, may be picked up using explosion-proof, non-sparking vacuum pumps, shovels, or buckets, and disposed of in suitable containers. If a large spill occurs, notify the appropriate authorities. In case of spill or accident, contact CHEMTEL at 800.255.3924.

SECTION 7: HANDLING AND STORAGE

Precautions for Safe Handling:

Open containers carefully and in a well-ventilated area, using appropriate respiratory protection. Wash hands thoroughly after handling. Keep containers closed when not in use. Do not transfer to unmarked containers. Empty containers may contain product residue which may exhibit hazardous properties; therefore, do not pressurize, cut, glaze, weld or use for any other purpose.

Conditions for Safe Storage:

Store in a cool, dry, well-ventilated area. Keep containers tightly closed and store away from heat, sparks, open flame, or oxidizing materials. Extended storage at excessive temperatures may produce odorous and toxic fumes from product decomposition.

SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

Control Parameters:

Chemical Name	Value/Notation
Proprietary Ingredient 1	ACGIH: 20 ppm (TWA)
Proprietary Ingredient 2	ACGIH: 20 ppm (TWA)
Proprietary Ingredient 3	ACGIH: 500 ppm (TWA)

Appropriate Engineering Controls:

Avoid creating dust or mist. Local exhaust ventilation, process enclosures, or other engineering controls are required when handling or using this product to avoid overexposure. Use explosion-proof ventilation equipment. Do not use in closed and confined spaces. Keep all levels below exposure limits. Perform regular monitoring to ensure exposure limits are not exceeded.

Personal Protective Equipment (PPE):

Respiratory Protection:

Do not breathe vapors. When concentrations exceed the established limits, wear an appropriate, properly fitted respirator (NIOSH/MSHA) until vapors are exhausted. Observe OSHA standard 29 CFR 1910.134 and ANSI Z88.2 requirements whenever workplace conditions require a respirator's use.

Hand Protection:

Wear appropriate protective gloves and clothing to prevent skin exposure. Gloves must be inspected prior to use. Use proper glove removal technique (without touching gloves' outer surface) to avoid skin contact with the product.

Eye Protection:

Use safety eyewear with splash guards and side shields. Use additional eye protection, such as chemical safety goggles when the possibility for eye contact from splashing, spraying liquid, or airborne material exists.

Skin Protection:

Avoid contact with this product. Wear appropriate protective gloves and clothing to prevent skin exposure. Use proper glove and clothing remove techniques to avoid skin contact with this product. When handling large quantities, eye wash stations and deluge showers should be available.

Hygiene Measures:

General:

When using this product, do not eat or drink. Wash hands with soap and water before breaks and at the end of each workday.

Contaminated Equipment:

Avoid contact with contaminated clothing and protective clothing. Wash before reuse.
