

**00617 – PLASTIC CLEANER**

Ready for use

Use industrial paper
or clean clothes**DESCRIPTION**

Anti-silicone and antistatic degreasing agent suitable to prepare plastic materials ready for painting.

USE

Suitable for Industry and Car Refinishing.

Removes silicones, fats and various polluting agents from the surface with antistatic effect (it doesn't attract dust by painting). To be used to clean and degrease all plastic and glass substrates.

CHARACTERISTICS

- Good cleaning power.
- Good antistatic power (it provides the cleaned substrate an electric charge the same polarity of the air dust thus repelling it from the surface to paint).
- Fast evaporation
- Universal degreasing agent for all plastic materials and glass.

SUBSTRATE PREPARATION

The surface must be ready to paint.

APPLICATION

Use clean clothes or industrial paper as follows:

- Wipe the surface with a cloth or paper towel soaked with DETERGENT.
- Dry with clean clothes or paper towel before the product has evaporated (never allow the product to evaporate on the substrate).

DIR 2004/42/CE: Preparatory and cleaning IIB/a – VOC ready for use 850 g/l
This product ready for use contains at most 800 g/l VOC

RECOMMENDED OVERCOATING

All the products of our range specific for plastics.
